## 5. Basic handling as a package, flat rate

### Ramp Handling as a package: Content

The following table defines the type and scope of the services included in the basic package during the standard handling time.

The standard handling time within the meaning of the contract is scheduled turnaround time (STA to STD). The maximum is from ATA to ATA plus one hour and from STD minus one hour to STD, unless otherwise agreed. In the event of delays, the minimum turnaround time is the standard processing time.

Services outside the standard handling time are billed as special services and must be proven.

The services according to the standard package are based on the service descriptions in the IATA Standard Ground Handling Agreement.
